

# RAMWASH

INDUSTRIAL STRENGTH CLEANING SOLUTION

*A Healthy, Safe Alternative for Use in Parts Washers, Pressure Washers, Floor Scrubbers, and Vehicle Wash Equipment*

**RamWash** is a revolutionary concept in environmental cleaners for all phases of industrial parts cleaning, that separates oil from water almost instantly. The solution is non-emulsifying, water based, biodegradable, non-flammable, non-hazardous & extremely gentle to skin, eyes and mucous membranes.

## WHY RAMWASH?

- ◇ Non-emulsifying
- ◇ Effective and easy to use
- ◇ Neutral pH
- ◇ Biodegradable
- ◇ Non-toxic
- ◇ No environmental hazards
- ◇ Non-flammable (no flash point)
- ◇ Water and surfactant mix
- ◇ Highly concentrated
- ◇ Heated solution breaks down oil
- ◇ Non-corrosive
- ◇ Releases oil from emulsion to increase efficiency in oil-water separator equipment
- ◇ Leaves surfaces that are residue free and ready for painting
- ◇ Cleaning surfactants promote fast cleaning of all petroleum-based lubricants, carbon & dirt
- ◇ Performs well in hot or cold water
- ◇ Is an excellent spray-on degreaser

# WHAT MAKES RAMWASH DIFFERENT?

RamWash can actually allow an industrial site to begin washing all forms of equipment, vehicles, floors, walls, etc. and easily and quickly have the oil come to the top of the catch basin or holding tank to be skimmed off. As a result, environmental problems caused from the inability of the user to separate oil from water can be almost entirely eliminated.

RamWash can be added to large holding tanks of oil/water emulsions at very low dilution rates producing almost total separation of the oil and water within a short amount of time (minutes). This saves the user tremendous amounts of holding tank time and also reduces substantially the costs associated with trucking away oil/water solutions.

Even though RamWash is strong on dirt and grease, it is gentle on people. Service technicians generally hate to use solvent based parts washers. Solvents cause their skin to crack and chafe. When they have cuts or abrasions, the solvent burns their hands, and long term use of solvents can cause serious health problems (just read the msds sheet). RamWash solves those problems.

**WILL CLEAN:**

- ◇ Heavy Grease
- ◇ Dirt & Oil
- ◇ Carbon & Soot
- ◇ Mold & Mildew
- ◇ Metals
- ◇ Plastics
- ◇ Rubber
- ◇ All Washable Surfaces

**In Parts Washer:**

Mix 1 part RamWash with 4 parts water.

**Pressure Washer:**

Mix 1 part RamWash with 50 parts water.

**General Use:**

Mix 1 part RamWash with 25 parts water.

Product	Part Number
RamWash One Gallon Bottle	1500-016-01G
RamWash 5 Gallon Pail	1500-016-5G
RamWash 55 Gallon Drum	1500-016-55G
